Deep Democracy level 1

Working with groups, small and large, is often a challenge. To bring people together is to bring diverse opinions into the room. How does one get everybody on board?

Deep Democracy is a method not only for decision making, as well as conversation. It offers a range of tools to help bring out the full potential and wisdom of a group and include all majority and minority voices in a decision.

Do you want to

- feel more comfortable in facilitating and leading meaningful conversations?
- be able to track group dynamics and intervene appropriately?
- gain more confidence in handling decisions with multiple stakeholders and great diversity of opinions?
- handle tension and conflict with more ease?
- come to decisions with 100% buy-in?
- facilitate deeply transformative processes?

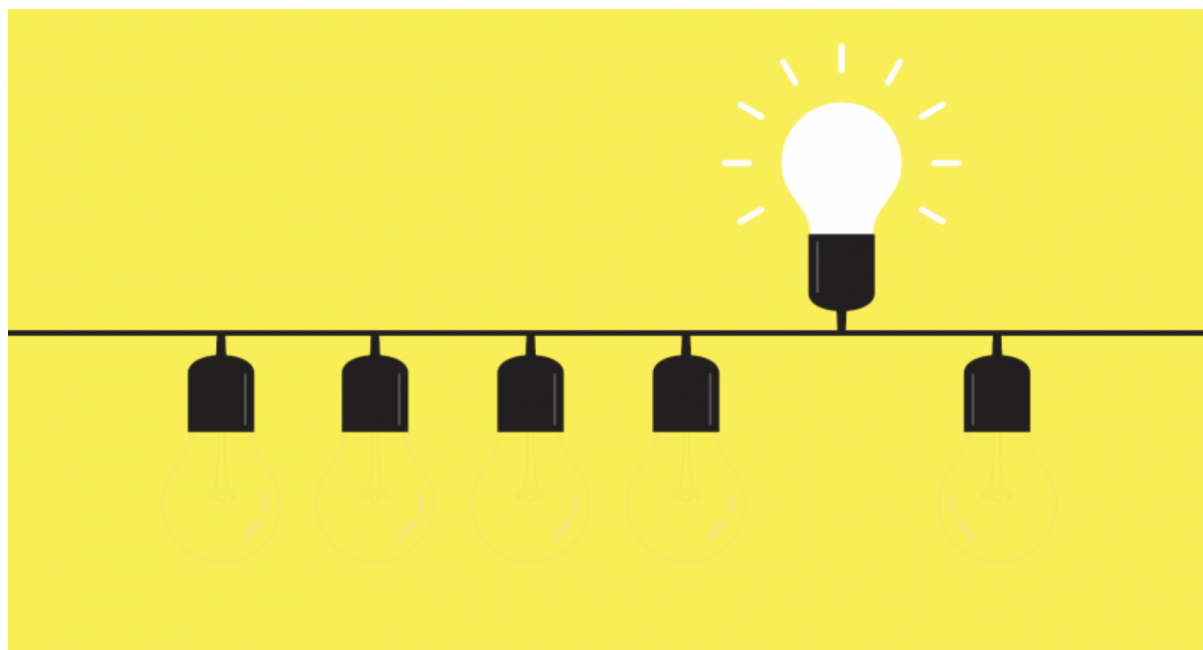

Deep Democracy offers step by step guidelines for all of the above. The level 1 program consists of theory and practice of group dynamics, decision making and conflict resolution. The course is of an experiential nature and offers interventions that can immediately be applied at home and at work.

The Deep Democracy level 1 course is part of a complete learning pathway of a total of 4 levels in 9 days all together. It is not necessary to join the complete pathway; you can choose to take part in only level 1 and feel yourself able to practice this method. The order of the courses is fixed (level 1-4).
